

Radio Play Jigsaw

A Cross-Disciplinary Group Project

Paul Cross paul.cross@humber.ca

Sean Doyle sean.doyle@humber.ca

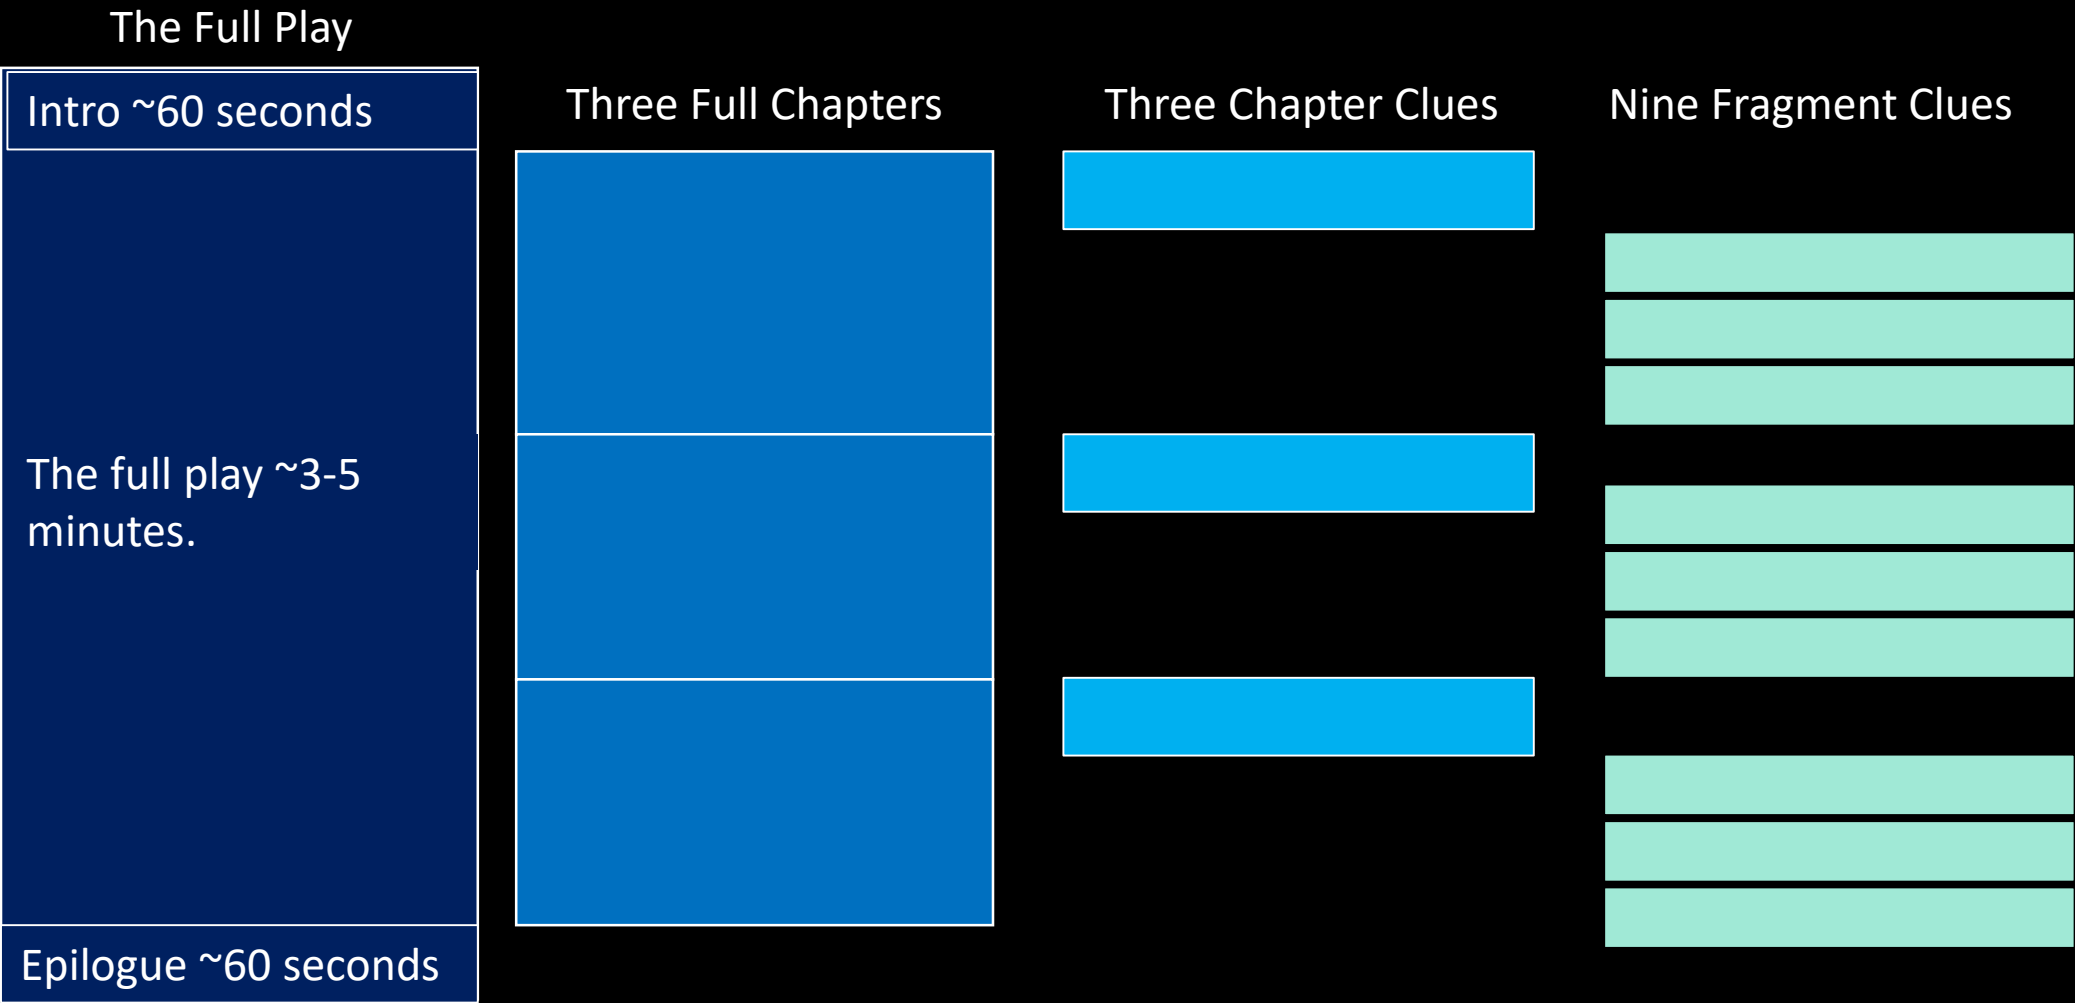

Project Objective:

- Recreate a scaled-down replica of the Echoes series games
- Teams will collaborate across two programs: Broadcasting - Radio & Web Development
- Broadcasting - Radio students produce the audio files
- Web Development students produce the web application and physical materials

Broadcasting – Radio Deliverables:

- Each team will write and produce a 5 minute(ish) radio play
- Week 9: Title, theme, and 1 sentence description
- Week 10: Provide "chapter" and "fragment" image descriptions
- Week 13: Provide full, "chapter", & "fragment" audio files (44.1 mono mp3)
- Week 15: Play your games!

The Audio Parts (18 files)

Web Development Deliverables:

- Each web team will design the web application and physical components of the game
- Each web team will create the web application of the game
- Each web team will create the physical components of the game
- Possible cross-program feedback session.
- Week 15: Play your games!

Web Development Deliverables: TODAY

Email your course instructor with...

- Team name
- Team members and roles
- A contact email to be given to the Radio team for group communication

Questions?

- What?
- Who?
- How?
- When?
